

## **Eagle Mount Horticulture Intern**

### **Overview**

The purpose of this internship is to provide an educational opportunity for a part-time/full-time student in education, agriculture, plant science, health and human development, or any other related course of study. Eagle Mount's horticulture intern will provide staff support for the Horticulture Program and will be supervised by the Program Coordinator. These efforts will include teaching opportunities, assisting participants in gardening and other plant related activities, and garden maintenance. This is an unpaid internship.

### **Goals**

The intern will:

- Develop horticulture/educational curriculum and/or project planning
- Interact with a wide variety of people including staff, volunteers, participants and family members
- Become part of Eagle Mount, functioning as a valued colleague

### **Qualifications**

The ideal candidate for this internship would be:

- Interested or experienced in gardening/horticulture
- Available 5-20 hours per week
- A good student, fully engaged in his/her academic program
- Creative, energetic and positive, with excellent people skills
- A motivated self-starter, able to work with minimal supervision
- An excellent communicator
- Dependable, willing to take on projects and see them through to completion
- Interested in the mission of Eagle Mount and the work of non-profits
